

- Respect sense of compassion
- Compassion based on inadequate information + conjecture can be damaging + unjust.
- Injustice against J.F.?
- Judgment of <sup>CPF</sup> to another bishop.
- Punishment in excess of crime?
- "harshly dealt with" - Bray { has never been informed of situation - altar boys.
- don't know facts.
- "foolish sexual language".
- "given the lack of evidence"

The above matters were discussed with Frank Le Fare + in addition the following:

- possibility of a job for J.F.: no chance because ① no bishop will accept him. ② I am always responsible for his actions.
- W.P. could be biased: W.P. can't speak for himself, not can I, for the matter is sub secret. Only J.F. can tell you the full story + you should ask them to be quite frank + open if you are his spiritual director.
- Should the horrific case ever be re-opened (Frank uses his as his main argument: ~~J.F.~~ was acquitted before he is innocent) there are certain people who could be accused of contempt of court for tampering with witnesses.
- "Should be given another chance" - his behaviour falter in Parramatta when he was given his was impudent to the point where the clergy is against him.
