25th November, 1999

I have this evening spoken to AHA regarding the incident which occurred 30 years ago in his mother and father's house.

- \* He says he never said he would deny the incident.
- He is weighing up whether to go to the secular courts for compensation
- He has been to a Chamber Magistrate who said charge him immediately
- He is bitter about the exposure through his mother
- He feels he has lost power because of this exposure.
- He said the church would only say a little prayer and sorry.
- He said it is of no benefit to go to the church.
- The church wouldn't do anything about it anyhow.

He is a very bitter, disillusioned man who needs an emotional and spiritual healing. .

*Barbara Taylor (Pastor)*

- \* *His mother said he was so sick of the whole matter and so stressed if anyone approached him he would deny it. Wondering where that would leave me I rang him.*
