Dear Brian,

I was overwhelmed on Saturday as I realised the beginning of steps you have taken to not only "do right" but to be seen to be "doing right" concerning the incident that occurred 30 years ago with AHA [redacted] and your father. My prayers have been for you and your family as both a son a father and a leader of leaders.

I spoke to AHI [redacted] on my return on Friday and she also was feeling very much for you and your father as well as AHA [redacted]

I think for me it has been a time of mourning.

When I rang AHA [redacted] on Saturday morning and told him that your father had confessed it and was being stood down he was so very, very soft. He said he was in absolute shock that your dad had actually not denied the incident. I think the dodging of the issue was causing the anger to accentuate. There was a complete change in attitude. I advised him to see you for ministry. He wanted to know if I had told you he was thinking of legal proceedings. I said of course that you know everything there is to know to this point.

Should the Holy Spirit prompt you to contact him his address and telephone number is:-

At times like this I remember that on Christ the solid rock I stand all other ground is sinking sand. I am reminding myself that God is the same to-day as last week and will be the same to-morrow. There is no panic in heaven only glorious plans for the future. How He does His work with our clay feet I will never understand until I see Him face to face..

B. J. Taylor

30/11 Before I sent this heard from AHI [redacted] that AHA [redacted] was trying to contact Brian.

1/12 Rang John Mc Martin to tell him about AHA [redacted]'s desire to speak to Brian.

2/12 John Wolfenden asked me re credential addendum. Told him the matter was being resolved and to ring John McMartin.

CASE CLOSED FOR ME (I HOPE)
