

Incident 1 : Place; Montgomery Park, ~~Bedroom~~ Bedroom

Time : About 11:00 PM (After "lights out")

January 1986

This was just before my 11th birthday, Lou was the leader of my dormitory.

This incident, although I was quite a long time ago cannot be questioned as I can remember the bed I was sleeping in, (bottom right, furthest away from the door).

Lou sat down on my bed and started rubbing my back and my shoulders.

After this he proceeded down to the dormitory. I remember pretending to be asleep but when he started rubbing

the genitals I became very uncomfortable.

I am still undecided as to what I did at this stage but I remember rolling over.

Incident 2 : Place : Montgomery Park, Half Way between the building and the beach.

Time : About 11:00 PM

This was the first time I had been to a primary boys' camp since the last incident. Lou had invited me as a leader. It was a very hot night and all of the younger leaders including myself decided to go for a swim down on the beach. For some reason I was late and quite a few minutes behind the main group. Lou came down with me but stopped half way. I became a bit uneasy when he put his arm around me but made him think that I wished to get down to the

bead after he put both arms
around me. After he touched my neck
again I got sick of the arms
moving away.
