June 1987

The whole situation began when myself and a group of others were on the mountain driving "up" to attend the COPS LEADERS CONVENTION. The first time Lou expressed himself was in Sydney on New Years eve. I and several others of our group had become slightly intoxicated after drinking too much alcohol. We were driving to an oval to watch the Sydney New Years Eve firework and a group of us were in <sup>BYM</sup> car. There were quite a few people in <sup>BYM</sup> car so some of us sat on each others knees. Unfortunately I was sitting on Lou's knee. When driving to and from the oval, Lou persisted in "squeezing" my penis. At that time as we were in the car I didn't notably object because as I said we were in the

The next night in Newcastle ~~where~~ where we stayed at the Christ Church Cathedral deanery, Lou and I had the same room. Later in the night, I was not able to get to sleep because of the high temperature, and it was quite late. Lou got up to get some fly spray, he sprayed the room and then came and sat on my bed. He then once again began to "play" with my penis and asked me if I would like to go over and ~~get~~ get into bed with him. I objected and told him to leave me alone. Once hearing that he promptly stopped and left alone.

The next morning he apologized and since then I have found it difficult to be in close proximity of him.

The reason I am saying all this is that I want Lou's illegal, and immoral actions to stop. I can, I think, accept his sexual orientation but I can't accept the way he chooses to express it.

Yours Sincerely
