CKR phoned to tell me CKU had met with the authorities, with Judy Williams present.

It appears that there could be three accounts of encounter, over a period of time.

CKR relayed that it may be necessary to go to St John's College to photograph the house; and be able to verify CKU's account of the happenings.

CKR was very pleased with our processes over these years in relation to this; and assured me that, in her opinion, we had done everything possible to take appropriate action given the facts relayed to her and then to me and Bishop Roger.
