Dear Phillip,

Meetings in Christ.

Further to our conversation re North Coast Children's Home. We are in the process of gaining advice from Senior Counsel. This will occur next week.

The following is the sort of message you could convey through your legal channels:

We are happy to see and support a meeting covering all relevant matters concerning the cause of action, liability, the basis of the duty of care claimed, alleged breach of any duty owed, the evidential and merit aspects of the matters raised and possible damages.

We are also aware of the pastoral aspects and would respond to reasonable requests for support and care.

Blessings,

Keith
