Dear Bishop Slater,

Again I write to you. Thank you for your advice, but a priest abused and molested me I wouldn't have one anywhere near me - I don't like them.

I'm seeking monetary compensation for the past and the anger and lost childhood. My life has been affected by all of the horrors I grew up in

REDACTED

I know other kids who were in the Home with me received a support package and I too am entitled to it. It won't change the past but it will help getting older and surviving in this world.
