

## FOR NEWSLETTER IN EARLY 2003

Insert Date

As you are aware, I am always concerned to ensure that our community is appropriately and adequately informed about matters which could potentially effect the reputation and standing of our School.

Accordingly I confirm that the School is cooperating with a police investigation into allegations of sexual misconduct by a former teacher following complaints by two former male students arising from alleged incidents approximately 20 years ago.

The teacher's association with St Paul's ended over 18 years ago and as this is an ongoing police matter I am unable to provide further details at this stage.

Our School has come through a difficult period in recent times displaying all the best qualities of a healthy and robust community spirit without sacrificing the caring qualities for which our community is known.

I thank you for all your support and understanding in this regard.
