Originally I had anticipated that I would require a teacher of History and English to replace Mr. Lynch who will take over the role of Student Counsellor next year. However after ascertaining the subjects chosen for study next year by Grade 10, I discover that we have had an increase in those choosing to take Science subjects, including Earth Science, and a decrease in those taking the Humanities. I therefore found I needed a science teacher and have appointed Mr. Jim Taylor who has been at St. Paul's for ten years. He will be required to teach Earth Science and Chemistry at Forms V and VI, as well as Junior Science.

- APPROVED.
