ACW /Holdsworth/GS/IntAT

I spoke with former Headmaster of REDACTED at REDAC when ACW ACW was there John Holdsworth. John Holdsworth did not have any clear memory of the boy ACW. His main recollection of GS at the school was that he and the primary Principal, Denis Doherty did not get on. DD often complained about unprofessional and inconsistent behaviour by GS. The main thing that Holdsworth remembers is DD objecting to the amount of time that GS had the car away from the community and often he would have a single student with him. He did not think this was appropriate behaviour.

Holdsworth says he did not request a move for GS and when GS was moved at the end of the second year he assumed it was because the two of them had commented namely GS and DD that they did not get on well. As it turns out DD certainly did say to the Provincial that he was not happy with the work of GS nor with the professional level of his relationship with students. Holdsworth does not recall anything specifically inappropriate being reported to him at the time.
