

NOTES RE EMMA FOSTER

I have been with Anthony and Chris Foster and have met them at the corner of Johnson and Moya Street. They explained where the presbytery was, where the senior school was and where the road had previous run through. We then entered the hall where it is play day with number of mothers and little kids. We then came into the corridor leading to the room marked "shower", the door of which corridor was on the day that they had bought Emma here, was open. The door marked "shower" had a special key at that time. We are now standing in that room. It is crowded because there is a fete on and a lot of stuff for the fete is obviously here. There are two shower recesses and the room is sort of an L shape.
