

**NOTES RE CONVERSATION WITH  
SEN. CONST. DOMCHI**

Sen. Const. Domchi told me of his conversation with Emma Foster. First she excluded her psychologist from the discussion she had with Domchi. She wouldn't speak about the incidents and said that she has not disclosed any details to the psychologist. She spoke to Domchi about the degree of assaults. She said that there was touching on the vagina but would not elaborate. There was no digital or penile penetration. She was at school in Oakleigh and he would take her into the hall. Won't talk about it in detail. Refers to touching of inner clothing.

I will have to chase up further details from Domchi because he tells me that the whole family Emma, her two sisters, and the mother and father applied for Crimes Compensation.
