

MEMORANDUM TO COUNSEL ASSISTING**RE: EMMA FOSTER**

You may look at the file of Emma Foster. This is a girl, from whom it has been very difficult to obtain real corroboration of her complaints, which complaints themselves are hardly articulated. You will see from the file that we have sought to obtain information from psychiatrists and others. You will note from the reference to Sen. Const. Domchi the peculiar statement that the whole family appears to have applied for crimes compensation. Could you find out from the Crimes Compensation Body the details of these applications.
