Dear Peter

Thank you for your recent fax requesting information.

To my best recollection the only priest who was present during any discussions between me and parents in Doveton was Father Hilton Deakin. As I recall, he was involved in his capacity as Acting Bishop for the region in which the Doveton Parish is located. My recollection is that this meeting was with a group of parents, which may or may not have included Mrs Brash. I do not recall the meeting as described in your fax, although I am sure I had individual conversations with Mrs Brash.

My diary does not contain specific information about these meetings.

I'm sorry I cannot add further to this question.

With best wishes

ALLAN
