

ALL ABOUT FATHER

I feel very uncomfortable and would like others and me to have their own privacy. And I think Father should not stick his nose into other peoples business. Also I declare that father should not force grade fives and sixes to serve. I think that he should not make us work, but we can only, I said ONLY if we want too. And he should not expect families . . . not mentioning any people to invite himself for dinner.

I think he is gay

I think that someting is rong about him.

I think father needs medical help

He makes me feel scared

He makes me uncof terbel

HE IS MAD

I want to tell him what I think

I want to talk to all teachers

I think father should not be in this school because he forces us to serve. And he says if we don't serve he says that we are not true christians. I feel as thow I have to serve!

I also feel very uncomftable
