As a concerned parent of children who belong to the Holy Family Parish I am most disgusted of the conduct of our Parish Priest. I have no trust or confidence in our Parish Priest.

I have taught my daughter to treat the Parish Priest as a dangerous stranger. Since when do you hold hands and kneel between a Priest knees while in confessions.

or tell a young child she is over weight, chubby and then ask another child isn't she look at herself when she is addressed.

And what you are put through and the humiliation when it is time for the Saint John's enrolment, never gain. I have also made an official complaint to Head Office but nothing was done to my knowledge.

Until something is done I will not take myself or my children back to Holy Family Church.

Thanking you
