

RE FR John Nestor

CONFIDENTIAL

ABM

REDACTED

Phone: REDACTED

Parishioner and parent from Dapto who came to Centacare for support in the aftermath of the publicity re charges laid against John Nestor.

In a recent phone conversation she indicated that she is keen to meet directly with Bishop Wilson in the light of the finalisation of the appeal of the guilty conviction and with the understanding that the Bishop will need to further deal with the matter of John Nestor as a priest of the Diocese.

She again reiterated that she has concerns that as a parent she was informed by her son about dealings with Fr John Nestor in which there was indecent behaviour by himself and that he encouraged the small group of older boys who were taken away by him "up on the mountain". This involved references to "hairy bum" and "biggest dick" and other matters. She still has in her possession and would like to show to the Bishop the letters received at the home from Fr John Nestor and to discuss the disquiet she feels has about these.

She will recontact me during next week (3 - 7 November 1997) to hopefully hear whether this meeting can be arranged and appointment details, etc. I understand she does work some times.
