Dear Peter,

I enclose a translation of the sentence of the Signatura. I think it is reasonably accurate.

You win the case, but on technicalities rather than substance. You will see that the court provides Nestor with fertile ground for lodging further actions. So I am afraid that your victory is only temporary.

I think that Phillip Wilson should see a copy in his capacity as President of ACBC, so should the chair of the committee for Professional Standards and Angela and Julian at the National Office. Needless to say, that is up to you.

Best wishes,
