

## FILE NOTE

FROM: MTS  
RE: Trustees of the Marist Brothers - Br Francis William Cable (aka Romuald)  
MATTER NO: 130295  
DATE 19 August 2014

---

Telephone conversation with Brother Peter Carroll on Tuesday, 19 August 2014.

Peter has noted the 1970 mention of an reproof from the Provincial.

He has carried out some other enquiries to ascertain what this might have related to.

No members of the Provincial Council or relevant principals are alive to expand upon what the reproof might have related to.

I think Peter Carroll does note references in other visitation clauses to Cable being a generally difficult person to live with in community and notes the high frequency of community transfers which Cable undertook. Peter's gut feel was that the reproof probably related to his manner in his community and the difficulty he had getting on with people. However, we agreed that was a natural question which CCI are going to be suspicious of as to whether there was specific complaint relevant to the unlitigated matters.

Brother Carroll instructed us to make arrangements for a member of Carroll & O'Dea to take a watching brief over the criminal trial to see whether there is any expanded points around Cable's explanation of reproof which the police now have documents concerning.
