

AAN

AAN initially contacted for counselling help saying he did not want to take action legally. He changed counsellors once. His marriage is very difficult I understand. Between 1976 and 1981 Brother Kostka Chute took AAN to his office and fondled himself and AAN on several occasions. It also happened once at the Brothers' house. Subsequent to the abuse he has been acutely suicidal and depressed. He has received psychotherapy.

ADD

Whilst in primary school ADD was sexually assaulted by Brother REDACTED in 1980 on 2 occasions. Brother RE is alleged to have assaulted ADD in a classroom where he forced his penis into the claimant's mouth. In secondary school Brother Kostka Chute assaulted him through masturbation and penetration. Later REDACTE took him to a preparation room and assaulted him by penetrating the claimant's mouth with his penis. This occurred on one other occasion. Through anger ADD used to truant and steal. He suffered from substance abuse and attempted suicide. He suffers from depression and has symptoms of post traumatic stress.

There seems to be a late development here. ADD is now claiming he was assaulted by Br Gregory Sutton. Since there was no Br RE I assume ADD was mixing up Mr REDACT who was a lay teacher at the College. Or so he claims.

AAP

Brother Kostka Chute sexually abused AAP by fondling genitals on numerous occasions in 1985 and 1986. He is currently depressed, depends on alcohol and cannabis, and suffers from dysthymic disorder and non specific personality disorder.

ACC

In 1977 Brother Kostka Chute fondled his genitals in his office on one occasion and on another was interrupted before an incident may have occurred. In 1979 REDACTE arranged for the claimant to stay over. REDA gave him some kind of elixir and anally raped him. He has since had a history of depression, an inability to cope with normal life events, suffered from dysthymic disorder and depends on alcohol.
