

## **BROTHERS IN CUSTODY AND PAROLE RELEASE 150210**

I spoke with Greg Walsh regarding the need to initiate detailed application for parole conditions for KC who is due for release in June 2010. A letter had been written to GW some time ago to follow this matter up but there had been no reply. In the meantime Howard Harrison has also spoken with GW about the matter and it is time to move.

The Provincial is also looking at this matter and discussed it at length with KC. An approach has been made to aged care institutions with a view to KC being a possible resident. Given the very large number of offences involved with the two Brothers in custody at the moment there are many issues involved. Among these are the question of such men residing in community, the location of that community and also the attendance of these Brothers at large community gatherings.
