Protective Behaviours

Brother David gave notice of the introduction of a Protective Behaviours Program in the Senior College and Junior School next Semester. A training session for staff will be held on the Staff Development day at the start of Second Semester. The staff involved in teaching the Protective Behaviours Program will be the RE staff in the Senior College, and all teachers in the Junior School. On the training day a representative from CARE and Glenn Roff from the CEO would be involved. The program has been put through a number of CEO schools and it is the wish of the Provincial and Council that it be implemented in the four Marist schools.
