

CNK

**18<sup>TH</sup> OCTOBER 2010**

I spoke with Fia Norton of the Northern Rivers Legal Centre who said that they are prepared to support CNK in a meeting with the Marist Brothers regarding his complaints. It was clear that they do not have all the details or history of CNK's experiences and complaints. We discussed the possibility of using the Towards Healing protocol and they have access on the website to study. I indicated that I would be prepared to come up with a solicitor to speak with CNK and we could discuss whether or not we need to have an external mediator present. I suggested that it would be worthwhile for our solicitor to speak with their solicitor (Kathy) to talk about the process as to achieve maximum outcome and efficiency when we meet. CNK has finally given a signed written statement to the Northern Rivers office. At this stage they are not sure whether they are free to give us a copy of that statement. They will get back to us after they have looked at the Towards Healing protocol.
