Dear Brother Alexis

further to our telephone conversation regarding payment for counselling services on the 30 September 1992 I have since received two counselling sessions & have forwarded the accounts for each one.

My counsellor's particulars, name, qualifications & address are on the letterheads of those accounts if you wish to contact her direct.

Although I appreciate the payment of the counselling sessions I am still very angry regarding the incidents which occurred whilst I was under the care of Brother Patrick at Mount Brothers Hamilton. The protective sheath I have used has been one of minimalising to the point of it hindering my acceptance of those events. Thank you again & kindest regards.

Yours sincerely
