

Lunch Period Observations re ^{CIO} [REDACTED]
 Friday 28th August 1992; 12:30pm to 12:50pm

Both students came down for lunch as usual and sat with the rest of the senior school to eat on the verandah. As it was raining I watch to see who left the verandah and why. I did not see ^{CIO} [REDACTED] or ^{CIO} [REDACTED] leave the verandah. After about 10 minutes the students who had finished eating were allowed to enter the library & read a book or listen to music (radio).

I entered the library with the bulk of the students and asked ^{CIO} [REDACTED] if she'd like to read a book. There were 3 puzzles on a shelf and she said she'd rather do one of those so I gave her one, and she sat at the big table to do it. After about 2 minutes ^{CIO} [REDACTED] sat beside her to help. I had earlier shut the inside door so no one could pass me with my knowledge. I spent most of my time very close to that door and did not see anyone leave. I remember ^{CIO} [REDACTED] being very mobile and noisy but not exactly what he was doing all the time. I left the door area just as the relief staff arrived and as far as I can remember ^{CIO} [REDACTED] was still at the table packing up the puzzle.
