## RESIDENTIAL MEMO - DATE: 24-11-92

Re: Counselling

REDACTED

Gerard Cilarey feels that present referral to sexual activity is 'normal' & appropriate for age. During visits with them (as arranged by School Counsellor De Bruce Kure) he found

REDACTED

REDACTED

REDACTED

- i) minimal guilt
- ii) minimal embarrassment
- iii) to be equally naive as the "partner"

He felt anxieties (eg fear of the cop choking them) unrelated to the above & treated them as 2 distinct problems. Mother indicated to Gerard that these were pre-existing anyway.

REDACTED

Gerard saw 3 times & felt the matter was

0055CP

RESIDENTIAL MEMO - DATE: 24-11-92

"resolved" for [REDACTED] - He felt embarrassment, accepted that he took part, but believed it was minimal and "wasn't his fault".

Gerard doesn't feel [REDACTED] needs ongoing counselling for the above. He said he would see Mother + [REDACTED] if Mother concerned about anxieties. He felt that my suggestion to Mother to arrange referral to Sleep Disorder Clinic was the way to go - a following assessment - if any behavioural programs need to be implemented, he will be only too happy to see Mother + [REDACTED] then,

John G.

P.S. letter anyway to school from Gerard.
