Dear LJ

When we talked last week you were going to ring Moira Joyce for an appointment, if you have already done so I do hope things went smoothly. I am sending you a copy of my letter to Moira so you have confirmation of the arrangements made.

LJ I agree with you totally that you have been going through a process, similar really to the process one goes through when there has been a bereavement in the family. It is good that you can now say that you are at the stage in the process where you think counselling may help you, you are going in to it with a healthy open attitude which can only be of benefit.

With best wishes
Yours sincerely
