Before School

I was going to my office and Brother, called out  
Thanks for taking my class on Tuesday.

Me: That's O.K. Haven't asked you how you are but I saw you at the  
Mass of the Chrism, so I knew you must have been better.

B.G. The Monastery wants me to go to the doctor.

Me. What a good idea. You can't be too careful with chest pains.  
Oh, look Brother, I've been giving some thought to the things  
you said on Monday morning.

B.G. What things?

Me : Well, your comments and opinions about your R.E. programme and  
programming. I have been trying to assist you for 2 years now  
and obviously I'm failing to give you the help you need so I've  
decided to call in some outside help. The obvious person of  
course is Marg Condon as she is the other R.E. co-ordinator  
at the school, and I thought that perhaps together we may be  
able to assist you in your programming, so on Monday afternoon  
the three of us will meet to see what we can do about it.

B.G. Monday afternoon

Me: Yes, staff meeting day, but as the others won't be having one  
we can just meet down here in your room. I'd like you to bring  
your programme for Term One and also your programme from last  
year. You can give your comments and opinions on programming  
to Marg and then we can together plan what help might be needed.  
O.K. Thanks Brother.
