

Details of alleged incident:

The alleged victim claims that, as a young boy at neerkol orphanage near Rockhampton, the alleged offenders had abused him on private visits to the presbytery. He claims it happened regularly, with the knowledge of, if not the approval of the nuns who conducted the orphanage.

It has come to my knowledge through an enquiry to our archives office, as to whether the alleged offender was deceased. (He is deceased) Accompanying the enquiry from the police, was a full statement taken by a solicitor wherein the alleged victim detailed a long story of abuse.
