AYQ

REDACTED

Dear AYQ,

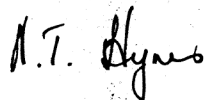

I must apologise for not getting back to you sooner but what with Christmas and New year etc., things get a bit bogged down.

After re-studying your original statement and the fuller statement made with Mrs. Carrick and consulting with my superior, we feel, that given the very serious allegations you have brought forward after so many years, it is only reasonable that you furnish some sort of verification.

You might choose to nominate someone, for example your GP, and give them permission to talk to me.

Once again, my apologies for being a bit late in reply,

Yours sincerely,

Rev. N. Hynes.
