

MEMO - BAKER

~~Throughout these difficult recent weeks,~~ Sue Sharkey telephoned me this morning to say that she had been contacted by the Principal of North Richmond Parish School - there is quite an amount of talk apparently among his staff but one staff member is more particularly distressed because they were expecting that some charges might be laid concerning the Parish Priest's behaviour. This has not happened and they were concerned. I said to Sue that I would discuss this with Maria Kirkwood; at this stage it pertained to the Pastoral Response through the school rather than to the direct counselling offered by Sue Sharkey unless there is a person who needs professional counsel directly, when they would be fed into her system.
