

17/7/90

Frank,

Re Doreton.

I have included file relating to past events re Doreton.

I agree Cath's suggestions on p 3 of the letter are impractical - but I would also suggest that they are the result of frustration, & pressure from staff & parents. The files indicate a long history. The files don't include a memo to Fr. Doyle from myself following a meeting with representatives of staff with Bishop Pell & myself.

Note the files show that the physical deficiencies of the school have ^{been} known for a number of years - but no one has been able to improve these. Over the last 3-4 years many members of this office have visited the school - P. Sunell, J. Gunn & O'Meara, A. Daines, N. Kaler - but little has improved.

Whilst we may wish to take issue with Cath, re the diplomacy of her letter, the facts contained are correct, are repeat what we have known, & not been able to change for 3-4 years

Nam
