(Meeting: John Doherty, Dominic Cudmore, John Davoren, Michael Hill) Duggan's poor state of health, including Alzheimers, makes it very difficult to proceed along the path desired by Ellis ... ie a meeting between himself and Duggan. This group is now of the opinion that such a meeting is NOT advisable. PSO to write to Ellis explaining this dilemma and asking him how he may be further assisted. Bishop Cremin to do whatever may be required by way of further contact with Duggan.
