Michael

As discussed, please see the attached draft.

Having reviewed the SA /Duggan file, it appears that Mr SA made contact with the PSO in 2007 but has not yet filed a formal complaint. It appears that he has had counselling since 2007 and more recently approval to assist with the cost of his tertiary studies. I am unsure why the allegations were not reported until 2009 but correspondence in 2007 suggests that detail of the allegations was not known. Subsequently, Mr SA provided copies of unsworn affidavits SA which were said by Michael Salmon to be of assistance to Mgr Usher and the PSO and Mr SA said he would provide a full and detailed account down the track.

Should we omit the date the allegations were reported?

I would be happy to discuss. Perhaps Mgr John should review the attached before it is sent?

Regards
