Sir,

Please see below for assessment on LAC Adams, as well as the Medical Officer who is treating him.

Request advice on when AFHQ/DCOORD wish for the LAC to be advised of the latest events. May I also request any documentation that may assist in ensuring that I convey the correct message to the LAC so that the process that follows is not compromised?

Regards,

Sonia

IN-CONFIDENCE:MEDICAL

Hi Aidan,

As discussed, I saw AC Adams this morning.

When I saw him today he did not exhibit any at risk behaviours. He is not at risk of self harm or suicidal behaviour. He has a number of protective factors that would stop him from attempting suicide.

He is exhibiting a normal stress reaction due to a number of incidences that he is currently experiencing. However he does not exhibit any depressive tendencies. He appears to be stable and rational.

I believe that he would be able to deal with further stressful information. However we would need some supports in place for after the fact. I will arrange for him to see a psychologist either on Friday or Monday.

If you need anything further, please do not hesitate to contact me.

kind regards
Danielle
