G'day Sean,

This is a document for you to prepare a response to next week for Joshua's review. He is doing research with DGPERS folk to see if LAC Adams was discharged after the Hunter Valley court hearing. It is relevant that the Sep15 hearing (first we have heard of it) may in fact see a civilian in court.

(Joshua: my apologies that for family reasons I am out of town next week however you and Sean can deal with this for the DG I am sure; please cc me on all correspondence since I expect to have spare time and will be accessing DRN some days)

hope all have a nice weekend,

Cheers,

Murray

RE Ceasing funding for psychological support
[Victim – CWOFF CJE]

Dear Terry

I am sadly writing to you, after picking myself up after receiving the attached letter from GPCAPT Murray Spittle late yesterday. In short GPCAPT Spittle has "*decided to cease funding for you and CJP (CJE's paternal father) with effect 27 March 2015. As a consequence of my decision, I will be unable to accept any or psychological services which occur after 27 March*".

He also noted that this funding will NOT affect my daughters ongoing support – am I should think so.

Terry I have written to you before, and I am so perplexed on how/what/why GRCAPT Spittle makes this 'judgement' call. I have been so emotionally upset and enraged last night – this was insensitive, cold and brutal!. You have absolutely no idea what this whole event has put not only me through personally, but the whole family, and of course more importantly my only daughter – CJE .

I am formerly requesting that this financial psychological support be maintained not only for me, but also for her paternal father, till at least the trial date [21st September 2015] with a review immediately after that. This is a serious crime and its impact not only on the victims but its family is immeasurable.

It is not in our control that the AAFC, Police and the Court System have taken this time in getting this matter finalised, but with the complexities of the matter, and not only my daughter as a victim, but now three separate victims from the same perpetrator (potentially more), this matter has dragged on. Yes – it is seriously taking its toll.

As I have stated before, not only to you, but others – thank you for the support, but just to simply flick a letter and say 'no more' is just cold hearted and inhumane.

I look forward to your positive response to this matter.

Yours sincerely

CJO
