You will recall from our previous correspondence that it was proposed to review access to funding for psychological support for yourself and CJE's mother.

On 17 March 2015 Group Captain Murray Spittle provided you advice that the provision of further funding for psychological support would cease with effect 27 March 2015.

Please be advised I am currently reviewing this decision and, if you feel it warranted, invite you to provide me with any information you consider to be relevant to warrant a potential further extension of funding for psychological support to yourself.

I intend to advise you of my final determination as soon as practical and would appreciate your response at your nearest opportunity. To provide you suitable time to provide advice, please also be advised I have extended your current funding for psychological support until 30 June 2015.
