To Whom It May Concern:

Re: Mr Daryl JAMES

Of REDACTED 5051

This letter is to say that the son of the above-mentioned person, REDACTED, is known to me with a history of schizophrenia. REDACTED has had several admissions to Boylan Ward, The Adelaide's Women's and Children's Hospital, in the past. REDACTED still experiences significant symptoms of the illness.

I understand that Mr Daryl James, REDACTED's father, is due to move to Melbourne as part of his Army career. In view of the need for REDACTED to continue to receive the support from his family, I recommend that special consideration be given to appropriate housing for the James' family. Given REDACTED's age, currently 19 years old, it would be most appropriate for the James' family to be accommodated in a dwelling with a separate "granny flat"-style provision. Such an arrangement will be conducive to REDACTED's recovery from the illness.

Thank you for your consideration. Please, feel free to contact the writer if further information is required.

Yours sincerely

Dr J.L. Van den Bos,
 MD, FRANZCP
