Importance: High

Dear Kerry,

Please find attached our updated Particulars of Loss, as at 9 November 2015.

For your assistance we advise that the only sections where changes have been made to the previous document are sections 5 (c) and 5 (d) (economic loss) and section 9 (past and future special damages). We've also made the appropriate changes to the summary page, in terms of updating the figures.

In relation to the estimated refund to DVA for treatment funded in the past, we advise that this figure is on the basis of our own assessment of the available information, not that of our client. Mr Greaves says that he cannot recall with any particularity which services might have related to his injuries or not. In relation to psychiatric treatment, his view is that predominantly DVA have funded treatment in relation to his Vietnam experiences, and not those at HMAS Leeuwin, at least until very recently. We have raised with Mr Frank White of DVA how it is anticipated that they might determine which services are or are not relevant to the determination of the refund in circumstances where a claimant himself is unable to recall, but we've had no reply which has been of particular assistance. Accordingly, we have done the best we can on a common sense basis to estimate what services might be relevant, including all GP attendances (although clearly not all will be relevant, but without knowing which ones are or aren't we are erring on the side of caution). We will by separate email forward you a copy of the spreadsheet we are basing our figures on in relation to past DVA treatment. In summary, though it is still a "best guess" scenario.

Kind Regards,
Lisa Kinder
