

## WINLTON PSYCHIATRIC SERVICE

CONFIDENTIAL : FOR DEPARTMENTAL USE ONLY

## PROGRESS REPORT

NAME: Katherine X

DATE OF BIRTH: REDACTE 64

1. Katherine X was visited by father today at his request. She feared this when she was told of it an hour before his due arrival time.
2. She agrees that it is a good idea for me to see her father and discuss their relationship, although, of course, she remains ambivalent about it.
3. I will contact BGG within the next 24 hours to arrange a time suitable to us both for me to see him.
4. I will discuss my interview with BGG with Katherine X next Wednesday.
5. Katherine X is starting to see herself more as an individual, but is still aware of the torn feeling of being between her mother and father. This awareness and her being less defensive about herself are signs of progress, I believe.
6. Staff should be clear when communicating to Katherine X what is happening with her.
7. She has a good relationship with Cath Mitchinson and her ability to maintain this and test it out is a good sign.
8. Katherine X should still have weekend leave if mother requests it.
