

ATTENTION _____

*26 May.***MEDIA STATEMENT**

Allegations have recently been brought to my attention concerning improper behaviour on the part of a past staff member. The staff member retired from the School in 1988.

We are gravely concerned and committed to undertaking a full investigation.

I have personally conducted preliminary inquiries and I can say that there is no evidence whatsoever within our records relating to any alleged events taking place more than twelve years ago.

Again I want to reassure all concerned that we are committed to investigate this situation further. As educators our principle concern is always for our students. It is a matter of enormous regret to us that some past students may have been affected.
