Dear Peter,

We are writing to say how well we think you and the school have handled the recent disclosures about the activities of Kevin Lynch while he was at the school.

Many of the articles which have appeared in the press seem to have singled Grammar out unfairly but we admire the open and honest way you have kept people informed and the efforts you are making to ensure that any boy who was affected is given every opportunity to avail himself of counselling, regardless of the threat of litigation.

Whilst it is distressing to realise that such activities occurred, it is reassuring to know that everything possible is being done to alleviate the suffering of those concerned and we wanted to let you know of our support during this very difficult time for you and the school in general.

We hope that the matter will be resolved satisfactorily for all concerned.

With best wishes,
