Telephone conversation with David Begg, has implicitly suggested that we should meet with him to discuss the future of this matter. By this he meant either some form of mediation or possibly a settlement negotiation.

I advised David that we now had instructions to seek Senior Counsel's advice on the merits of an appeal and therefore such a meeting would be premature at this stage.

I informed David that we would let him know whether we intended to appeal the decision or not as soon as we had instructions either way.
