Subject: RE: Ellis

Dear Stephen and Richard

Firstly thank you for all your hard work this week, it was greatly appreciated and you will be greeted with open arms at the Pearly Gates.

Secondly, it turns out that Fr McGloin has a complaint file as big as the New Testament...including some under age sex. I have an appointment tomorrow to review the Towards Healing file of McGloin and to look for a file on SA

McGloin was effectively sacked and does indeed live down south. I will try to interview him next week, although he may not be too keen when he realises why.

Interestingly, another witness has come forward, this time in support of Fr Duggan. Her name is Judith Penton and she sounds credible. I have an appointment to interview her next week. In summary, Duggan was a regular house guest of this lady. On occasions he brought Ellis with him ( I know this bit doesn't look good). Apparently Ellis used to bash Duggan ( who was in his 60s -nEllis was aged 14-15) and force himself upon the aging priest! She recalls one time when Ellis grabbed Duggan and started to kiss him in front of her. She remembers Duggan pushing Ellis off!

I have now written to Begg to ask for the balance of all outstanding affidavit evidence to be filed and served in 7 days. I will make a start with interviewing the Baker & McKenzie staff next week

Kind regards

John D
