Hi Col

I am so **very sorry** to bother you

I am presenting my submission to the RC on the Towards Healing Process

11th Dec 10.00. I am required there until the 13th to hear statements from those involved in my process.

David will be with me and if necessary read my statement if I cant. Margie will fly in that night and stay til the 13th

Fr Mulchay has engaged solicitors. They contacted the RC this morning. He will have a statement submitted today. He is denying that We had a meeting in 1990. The RC have asked if you could provide a draft BRIEF STATEMENT confirming you attended a meeting with me in 1990

A recollection that it happened. I am so sorry Col. Anna Tydd Council from the RC suggested it better I ask you. They are very conscious that you have a job and it is a ask to distract you today and this is requested from you today. Will you do this ?? Her is an overview

In my submission and original report to the Towards Healing I said we had the meeting but I I cant recall the names of the other priest

I started treatment for Bulimia with Prof Dooley at St Lucia University in 1989 then continued treatment with Prof Dooley at his private rooms. It was during this time that I first told you of my abuse by Brown.

As part of my treatment I met with Senior Church officials to tell of Brown's abuse of me. Fr Mulchay was present and I wanted him their because he knew me and my family particularly since he was friends with dad as they attended school together.

In 1990 as part of her rehabilitation it was agreed that she attend a meeting with senior Catholic Church officials at the Lismore presbytery.

One of her father's old school friends Father Frank Mulchay was present and when she told them of the abuse he started 'blubbering' and became very agitated and upset. He told her that 'they knew about the abuse' and it was obvious that nobody had done anything about it.

Her marriage to Colin subsequently broke down and they separated. He recently told her that the horrid recovery process had cost them their marriage and deprived their three year old daughter from growing up in a house with a mother and father. They divorced in 1993. She has now been married to Lindsay Ingham for the last fifteen years
