Photography Club

Marist Photography Club, which meets every Monday afternoon in the darkroom in the theatrette, is mainly concerned with teaching and developing the artistic and technical skills involved in the taking and processing of black and white photographs. Boys develop their own film and prints, and exhibit photographs at the end of year exhibition. Last year, this exhibition was won by REDACTED (Year 12) for his print “Skyward”. REDACTED (Year 10 — “Grain”) and REDACTED (Year 12 — “The Eye”) took second and third places respectively.

The thanks of the entire club is extended to Br Kostka, who provides invaluable assistance to and supervision of club activities and excursions.
Marist Film Club

The Marist Film Club is an integral part of our college co-curricula program and provides a social outlet for many of our younger students, who with their friends, can have an enjoyable social night while under the supervision of Br Kostka and the senior students who make up the club.

The film nights occur once a month. The films shown are all top quality and provide entertainment for all those who attend. They are chosen from an extensive range and are shown at the school only a matter of months after appearing in the cinemas. There is also a canteen run on film nights which ensures that the boys can have a full night out.

The club provides funds to many other school-run activities e.g. the Photography Club and Toastmasters/Gavel Club. It also helps in fund-raising activities for sporting groups and other organisations. Apart from this, the club also provides valuable experience to the students involved. They get a good idea of how a small business is run and the type of organisation and responsibility needed. They also get some experience in the operation of equipment used in the film industry.

Many thanks to Br Kostka who has given many hours to help us run the club and supervise on the film nights. Thank you also to all club members for their interest and dedicated work and to all students who have supported us on film nights. We hope for your continued attendance in the future.
