Dear Tony,

I don’t know if you remember me. My name is BIZ. I was a boarder at GGS Highton in the ‘80’s. You were my PE teacher from ‘84 onwards and then my year 7 homeroom teacher in ‘86 and Geography teacher in ‘86. I was reading the latest “Light Blue” magazine and was interested to see that Geelong Grammar has finally recognised that there are several methods by which we learn. During my years of education at GGS Highton I was let down because it wasn’t recognised that I was/am a kinaesthetic learner. However I did go on to University and received a Bachelor degree and a masters at The V.C.A. I do not work, however, as I am racked with mental illness and personality disorders which it has been estimated started at GGS even before I was molested by Phillip Trutman. I still have all of my school reports. It is funny to read them, even you are brutally critical of my personality and the way I socialised. Never was I offered any support or encouragement. Often the only encouragement I did receive was to be pushed into some sporting activity. That was akin to child abuse. To this day I am critical and outraged by the status and treatment of sports people. Particularly footballers. I cannot imagine a bigger LOWLIFE than a footballer or a football fanatic (supporter). They really should all be taken out into the street and shot. You cannot imagine the treatment I received at the hands of these LOWLIFES, or maybe you can.

Anyway, I may not work but I do have what our community considers the trappings of success. I have more money I could ever spend, a loving partner (even though our government denies us our civil rights) who I have been with for over 10 years, brilliant homes with some of the most important iconic late 19th and 20th century furnishing and many influential friends.

I hope you have developed into a better human being than I remember you to be.

Kind Regards

BIZ
