BIR

arr. w Rebecca Badenoch.

- we were surprised, not expecting a lawyer
- she indicated

- not coming in an official capacity
- here, as a friend to give her support
- helps him articulate if necessary
- everything "without prejudice"

- I may have

- she with nervous to meet with [redacted]
- OK to go ahead with my desperate presence of a lawyer, might otherwise appear we had something to hide or whatever might exacerbate situation risking forfeiting the opportunity to talk.

BIR

Maclay itself

- started with us indirectly as records re [redacted] working in any capacity at Clangan in 1980
- however, anecdotally, although not specific or clear one recall ^(impression) that thought she could remember his arrival at that time.

- [redacted] indicated he had franked down Gary Peter, (was had no love for the school), through phone directory, with comment that [redacted] was emergency t. at Clangan.

- [redacted] indicated it was difficult to remember when it actually happened but he ^{know} suspected it was in "summer" and probably later in the year. If it was then, then under I'm supposed to be Ted Butler. His comments on IS were complimentary initially but ~~was~~ suspicious that he was not "clear"
