Dear Jonathan,

First of all, thank <sup>you</sup> very much indeed for the help that you gave us in your two terms. You made a great deal more impact than one could reasonably have expected from somebody who was here for so short a time; and I know that both boys and masters (who are apt to be a bit mistrustful of energetic young poms) were appreciative of what you did.

Now for your two questions. It certainly would not upset the apple cart if you were married. It looks as though we are going to have a bit of space in hand, though I am not quite sure where you would live at this stage.

It would not matter if you were only here for a year, though of course I would like you to stay considerably longer. It so happens however that next year is going to be particularly important because of the girls coming out; and the year would give me time to look for somebody else. I was a bit taken by surprise by Les Christie's move.

I don't think I can comment on the claims of Bishops. It all depends upon what you think about living in South Africa at the moment.

Anyway, I hope that you will think you can come, though I realise that Haileybury will put a lot of pressure upon you. (Incidentally, I did write to Roger Moore, but have not yet had any answer from him).

Thank you for the kind things that you said. I think this is becoming quite an exciting place to be.

Yours ever,  
*remember me to Tosh Burnett*
